

# Briefing Taxiway „E“

The obstacle wingtip clearance on the taxiway „E“ is granted for A/C with a wingspan less than or equal to 15 meters only.

In the future, A/C with a larger wingspan are authorized to use this taxiway after a briefing through IMA GmbH only

The total distance between the present forest is min. 42 m, respectively 21 m from the centerline.

We would appreciate if you inform your crews and confirm this to IMA GmbH. Crews without briefing has to taxi via northern runway and taxiway "C" to southern runway. The exception applies to aircraft with a max. Span of 26.29 m (Falcon 8x).
